

AICloudStrategist

Webinar Registration Flow + Reminder Emails

Purpose: convert /webinar.html visitors → registered attendees → call bookings.

Event: *Is Your AWS Bill 2x Your Projection?* – Tuesday 22 April 2026, 16:00 IST, 45 minutes via Google Meet.

Target: 20 registrants, 10 actual attendees, 2-3 post-event discovery calls.

Registration form (Google Form, free, 15 min setup)

Form title: *Is Your AWS Bill 2x Your Projection? – Free Webinar Registration*

Form description: > Tuesday 22 April 2026, 16:00 IST. Google Meet. 15 min content + 30 min open Q&A. Limited to 50 attendees so Q&A stays useful. We'll send the recording + slides within 24 hours of the session.

Fields (minimum, to maximise signup conversion):

1. **Full name** (*required, short answer*)
2. **Work email** (*required, short answer, email validation*)
3. **Company name** (*required, short answer*)
4. **Your role** (*required, dropdown*):
 - CTO / VP Engineering / Head of Infrastructure
 - Engineering Manager / Platform Lead
 - SRE / DevOps Engineer
 - CFO / Finance Lead
 - Founder / CEO
 - Other (specify)
5. **Rough monthly cloud spend** (*required, dropdown*):
 - Under 2 lakh
 - 2-5 lakh
 - 5-10 lakh
 - 10-25 lakh
 - 25-50 lakh
 - Over 50 lakh
 - Not sure
6. **Your top cost concern right now** (*optional, long answer*):
 - Placeholder: *"What's the specific cost question you'd want Anushka to tackle in the Q&A?"*

After submission: - Redirect to confirmation URL: `https://aicloudstrategist.com/webinar-confirmed.html` (we'll build this in 5 min) - OR show standard "Thank you" screen with Meet link included

Response settings: - Collect email addresses: ON - Send respondents a copy of their response: ON (this serves as automatic first confirmation) - Limit to 1 response per account: OFF (allow multiple for team registrations)

Link placement: update `/webinar.html` to replace `REPLACE_WITH_GOOGLE_FORM_URL` with the real Google Form URL.

Email reminder sequence (5 emails, fully drafted)

Anushka can set these up either manually in Gmail (5 scheduled emails) OR via a Google Apps Script

attached to the form. Manual is fastest for 20 registrants.

Email 1 – Immediate on registration (auto-sent by Google Form)

Google Form's built-in "send respondents a copy" handles this. No additional work needed.

Email 2 – Day of registration (within 1 hour)

Subject: [Confirmed] Webinar Tue 22 Apr – Google Meet link inside

Body:

Hi {firstname},

Thanks for registering for the webinar on Tuesday 22 April.

Here is everything you need:

- Date/time: Tuesday 22 April 2026, 16:00 IST
- Duration: 45 minutes (15 min content + 30 min Q&A)
- Google Meet link: {PASTE_MEET_LINK}
- Calendar invite: attached (.ics)

Quick ask: if there's a specific cost question you want answered in the Q&A, reply to this email with it. I pre-plan the Q&A order so questions from registrants go first.

Bonus: attaching our AWS Cost Cutting Checklist PDF. Useful either way – whether you attend live or watch the recording later.

See you Tuesday.

Anushka B
Founder, AICloudStrategist
aicloudstrategist.com

Attach: aws-cost-cutting-checklist-indian-smbs.pdf (already on our VPS at /var/www/aicloudstrategist/downloads/) **Attach:** calendar.ics file for the event (generate via Google Calendar → Add event → Get shareable link → Export ICS)

Email 3 – 24 hours before (Monday 21 April, 16:00 IST)

Subject: Tomorrow 16:00 IST – the webinar we're running + a preview

Body:

Hi {firstname},

Quick reminder: the webinar is tomorrow (Tuesday 22 April) at 16:00 IST.

Meet link: {PASTE_MEET_LINK}

Preview of what we'll cover in the 15 minutes of content:

1. Reserved Instance coverage – why 70% of Indian mid-market accounts are under 30%
2. Cross-region egress – the one Terraform flag that quietly 3x'd a GCP bill
3. Orphaned EBS volumes – 38 volumes, 4.2 lakh/year, in accounts nobody had reviewed
4. Tagging coverage gaps – 20-35% of spend sitting in untagged resources
5. GPU over-provisioning – given the April 2026 AWS price hike

The full 30 minutes after that is your questions. If you have a specific cost question you'd like tackled first, reply now – I batch them in advance.

See you tomorrow.

Anushka

Email 4 – 2 hours before (Tuesday 22 April, 14:00 IST)

Subject: Starting in 2 hours – webinar meet link

Body:

{firstname}, webinar starts at 16:00 IST (in 2 hours).

Meet link: {PASTE_MEET_LINK}

Pre-call tip: have your AWS Cost Explorer open in another tab. The first diagnostic we'll discuss can be run in 10 seconds against your own account.

See you shortly.

Anushka

Email 5 – Same day, 1 hour after end (Tuesday 22 April, 18:00 IST)

Subject: Thanks for attending – recording, slides, and the next step

Body (for attendees):

Hi {firstname},

Thanks for joining the webinar. Three things in this email:

1. Recording: {PASTE_RECORDING_LINK}
2. Slides (PDF): attached
3. Follow-up

On the follow-up: for the first 3 companies who sign a FinOps QuickStart engagement with us before 15 May 2026, we are running a first-customer offer – 50% off standard pricing (40K vs 75K) in exchange for named case study rights. Two weeks, ranked backlog, open-source tooling, founder-led.

Details: <https://aicloudstrategist.com/first-customer.html>

If you'd like to talk specifics for your account, book a free 30-min Cloud Cost Health Check: <https://aicloudstrategist.com/book.html>

Either way – your attendance was valuable, and I hope the session surfaced at least one pattern worth checking on your own bill.

Anushka B

Email 5 variant – for no-shows (subject: Missed the webinar – here's everything):

Hi {firstname},

Sorry we missed you on the webinar earlier today. Things happen.

Everything's here:

- Recording: {PASTE_RECORDING_LINK}
- Slides (PDF): attached
- AWS Cost Cutting Checklist (PDF): attached

If anything in the recording resonates and you'd like a direct 30-minute conversation about your own account, book here: <https://aicloudstrategist.com/book.html> – no pitch, just patterns and priorities.

Also heads up: we're running a first-customer offer for the first 3 companies to sign a QuickStart engagement by 15 May – 50% off standard pricing. Details at <https://aicloudstrategist.com/first-customer.html> if useful.

Anushka B

Email 6 (optional) – 7 days after (Tuesday 29 April)

Subject: One pattern from last week's webinar – worth a 10-min check

Body:

Hi {firstname},

Following up one week later on the webinar with a single specific ask: have you had a chance to run the Cost Explorer RI coverage check?

Takes 10 minutes:

1. AWS Cost Explorer → Reservations → Utilization report
2. Filter last 30 days
3. Read the "Net RI savings" number against total compute spend
4. Below 40% → worth a conversation

If yours is below 40%, the gap is typically 2-8 lakh/month for Indian mid-market accounts. If you want to walk through what it is for your specific stack, I have 30 min slots open this week:
<https://aicloudstrategist.com/book.html>

No pressure if not – just checking in.

Anushka

Promotion checklist (get registrations IN)

Week before webinar (Apr 15-21):

- ☐ Post /webinar.html link on Anushka's Twitter/X – 3 times across the week
- ☐ WhatsApp message to 50 warm contacts (use the webinar as a lower-commitment entry point than a sales call)
- ☐ Include webinar registration CTA in the Sunday Reddit r/aws post body
- ☐ Email the 100-target list (2nd email in sequence, adapted for webinar invitation)
- ☐ Post in AWS User Group Delhi meetup group (once joined)
- ☐ Post in FinOps Connect channel (once joined)

Day of webinar: - [] Rajiv posts on /book.html booking confirmations redirect → webinar reminder - [] Twitter post 2 hours before

Post-webinar assets to generate

1. **Recording** – Google Meet records to Drive automatically if host enables. Download, trim, upload to a public Drive link or YouTube (unlisted).
2. **Slides PDF** – export from whatever deck tool Anushka uses (Google Slides / Canva).
3. **Summary blog post** – 2 days after webinar, publish blog post summarising the 5 patterns + linking recording. Extends the content's lifetime from 45 minutes to permanent.
4. **Attendee list** – export from Google Form, import to Vikunja as a task each: `Lead: {name} at {company} attended webinar`.

Success metrics

Registrations: - Floor: 20 - Target: 35 - Stretch: 50

Attendance rate (typical for free webinars): 40-55%

Post-webinar conversion (attendee → discovery call): - Floor: 1-2 calls booked - Target: 3-5 calls - If we hit target: this single webinar pays for the whole week of outbound work

If it flops (fewer than 10 registrants by day 5)

1. Don't cancel – run it anyway for whoever signed up, record it, use the recording as a repurposable asset
 2. Double the Twitter/WhatsApp promotion push for the final 48 hours
 3. Offer 1:1 calls to any registered attendee who can't make the time slot
 4. Learn: was the angle too generic? Too specific? Time slot wrong? Revise for next webinar in 30 days.
-

Next webinar (after Apr 22)

Run one per month for the first 3 months of the sprint. Topics:

- **May:** *The RI Coverage Governance Framework – An Afternoon Meeting That Recovers 2-8L/month*
- **June:** *DORA Metrics Translated for Your CFO – Getting DevOps Funded in 2026*
- **July:** *Cost-Per-1000-Inferences – The One Number Every Indian AI Team Should Know*

Each webinar = 20-50 registrants = 3-5 new top-of-funnel conversations per month.
