

First-Customer Offer

First-Customer Offer

Three Indian companies. 50% off. Through 15 May 2026.

The offer

40,000 (GST extra) for the FinOps QuickStart – a two-week engagement that surfaces 20-30% addressable monthly spend on your AWS / Azure / GCP account.

Standard price 75,000. First-customer pricing is 50% off in exchange for named case study rights.

What you get in two weeks

- **Ranked savings backlog** – every opportunity quantified in /month, classified by implementation effort, sequenced into a 90-day plan with named owners
 - **Commitment coverage audit** – Reserved Instances, Savings Plans, Committed Use Discounts: current rate vs. target, expiry profile, recommended portfolio action
 - **Waste and idle resource inventory** – orphaned volumes, idle load balancers, oversized instances, lifecycle-less storage
 - **Tagging and cost-allocation baseline** – heatmap of current coverage, recommended taxonomy, enforcement mechanism
 - **Open-source tooling foundation** – Infracost, OpenCost, FOCUS billing exports, handed over to your team
 - **Final readout session** – 90-minute decision meeting with your engineering lead, finance contact, and any executive stakeholder
-

What makes this different

- **Founder-led delivery** – Anushka B does the work, senior architect with 22+ years Fortune 500 weight reviews every finding
 - **No vendor lock-in** – everything open source, stays with you after the engagement
 - **Fixed price** – no hourly billing, no scope-creep surcharges, no surprise invoices
 - **Optional gain-share** – on the follow-on Managed Retainer, 20% of verified savings above 1L/month floor, capped
-

The first-customer catch

We need three Indian companies who are willing to be named case studies on aicloudstrategist.com/proof.html. You see the draft, you approve the final version, you can redact anything commercial. Your logo on our site is what makes the 50% discount work for us.

Who fits

- Indian SMB or mid-market – monthly cloud spend 5L to 50L
- AWS / Azure / GCP (or multi-cloud)
- Bill growing 30-60% year over year
- No dedicated FinOps function internally
- Can decide on a 40K engagement this month

Payment terms

- 20K at signed SOW + 20K on delivery
 - GST at 18% added (7,200) once GST registration active
 - NEFT, UPI, or wire
 - Net 7 from invoice
-
